

Dear Member

We're writing this time to give you a couple of brief updates:

### **FCC meeting**

Just to confirm that we are finalising the logistics of this meeting and will send an email with a confirmed date in June shortly.

### **Farringdon station**

We made a mistake in last week's email - the exit into Turnmill Street from the middle footbridge is open for normal use (at least in peak hours) (see [Google Maps](#)). Any more information appreciated.

### **18:16 from Farringdon (18:20 from St Pancras)**

FCC tell us that this service is loading very lightly (approx 1/3 full) so it for members travelling around then this could be a good service. It stops at St Albans, Harpenden, Luton Airport Parkway, Luton, Harlington, Flitwick & Bedford.

The stopping pattern for the 18:11 from Farringdon (18:16 from St Pancras) has changed. Stops are St Albans, Luton, Legrave, Flitwick & Bedford.

### **Possible strike action**

You will no doubt have seen the many stories reporting strike action next week (eg <http://news.bbc.co.uk/1/hi/england/7960874.stm>). The feedback I have received from FCC is that talks with the RMT today were "productive".

### **Ticket Office Hours**

I have tonight come across a couple of stories in the media which comment that the Ticket Office opening time reductions are being rethought (eg [Welwyn & Hatfield Times](#)). We'll ask FCC for an update.

### **Moorgate closure**

See [http://www.thameslinkprogramme.co.uk/news/news\\_items/view/20](http://www.thameslinkprogramme.co.uk/news/news_items/view/20).
